

CONTENTS

Pages

- 127 The oblique derivative problem for nonlinear elliptic complex equations
of second order in multiply connected unbounded domains
WEN Guo-chun
- 138 Entire solutions of a certain type of functional-differential equations
ZHANG Xiao-bin YI Hong-xun
- 147 Best bounds on the distance between 3-direction quartic box spline surface
and its control net
ZENG Xiao-ming ZHOU Guo-rong YANG Lian-qiang
- 158 A new mixed scheme based on variation of constants for Sobolev equation
with nonlinear convection term
LIU Yang LI Hong HE Siriguleng GAO Wei MU Sen
- 173 On the optimal harvesting of size-structured population dynamics
LIU Yan CHENG Xiao-liang HE Ze-rong
- 187 Optimal investment for the defined-contribution pension
with stochastic salary under a CEV model
ZHANG Chu-bing RONG Xi-min ZHAO hui HOU Ru-jing
- 204 Coupling for Markovian switching jump-diffusions
XI Fu-bao
- 217 The characterization of Γ -modules in terms of fuzzy soft Γ -submodules
ZHOU Min XIANG Da-jing ZHAN Jian-ming
- 240 f -Harmonic maps of doubly warped product manifolds
LU Wei-jun
