Finding authors

Peer2ref is a free server that uses fuzzy logic to match titles and abstracts against published articles to find similar papers and therefore potential authors who may be suitable reviewers. Work not so well for social sciences. http://www.ogic.ca/projects/peer2ref/index.html.
AuthorMapper(Springer): http://authormapper.com/

New Technology

MathJax for rendering TeX and MathML-coded text; Text-searching videos; Utopia documents: a new version of the PDF-viewer and interrogator, http://utopiadocs.com/.

Mobile-enabled websites:
Elsevier: SciVerse Scopus Alerts Individual; CRC Press; Mary-Ann Liebert; HaithiTrust; JSTOR http://www.jstor.org/; Boston Globe http://bostonglobe.com

Large journals promising minimal reviewing and to publish quickly in a broad area. Example include: Scientific Reports; AIP Advances; Sage Open; BMC Research Notes; QScience Connect; F1000 Research. F1000Research is a far-reaching alternative Open Access publishing program in biology and medicine. F1000Research challenges traditional scholarly publishing models by defining new standards for….. http://f1000research.com/

PloS One will rigorously peer-review your submissions and publish all papers judged by the readership after publication.http://www.plosone.org/static/information.action

Useful Organization

Association of Learned and Professional Society Publishers (ALPSP), ALPSP was formed in 1972 with 24 society members. **ALPSP** represent the interests of those involved in academic publishing. Members include publishes from around the world, especially those working in the non-profit environment. They provide a wealth of online resources, a monthly newsletter about publishing developments, a quarterly scholarly journal, advice on publishing issues and training courses in publishing. For more information, see website: http://www.alpsp.org/Ebusiness/Home.aspx.

COPE Committee on Publication ethics (COPE).　 an organization that advises editors. Their website includes useful policy statements for editors. By becoming a member editors have access to their advice on disputes. http://publicationethics.org/.

CSE(council of science editors) is a dynamic community of editorial professionals dedicated to the responsible and effective communication of science. Has regular meetings and educational program.
CSE's mission is to serve editorial professionals in the sciences by creating a supportive network for career development, providing educational opportunities, and developing resources for identifying and implementing high-quality editorial practices. http://www.councilscienceeditors.org/.

European Association of Science Editors(EASE), EASE is an non-profit membership organization for people interested in science communication and editing. Founded in 1982, EASE now has an international membership from diverse backgrounds , linguistic traditions and professional experience. It welcomes members from every corner of the world.

　　EASE helps its members keep up with trends in the rapidly changing environment of scientific publishing and sharpen their professional skills.

　　An electronic forum for exchanging shoptalk and ideas – the EASE-Forum

　　Annual general meetings linked with interesting lectures

　　A major conference every 3 years

　　A quarterly journal, European Science Editing, featuring articles related to science and editing, book and web reviews, regional and country news, and resources.

　　The EASE journal blog – for contributions from members and non-members to selected sections of European Science Editing

　　The Science Editors' Handbook, a loose-bound book, covering everything from on-screen editing to office management, peer review, and dealing with the media.

The International Committee of Medical Journal Editors(ICMJE) provides the key guidelines used by journals around the world: the uniform requirements for manuscripts submitted to biomedical journals: writing and editing for biomedical publication. www.icmje.org

The International Society of Managing and Technical Editors(ISMTE)　 is to enhance the professionalism of scholarly journals' editorial office staff by providing networking and training infrastructure, establishing and providing resources for best practices, and studying, benchmarking and reporting on editorial office practices.　 http://www.ismte.org/.

World Association of Medical Editors is a nonprofit voluntary association of editors of peer-reviewed medical journals from countries throughout the world who seek to foster international cooperation among and education of medical journal editors. www.wame.org
